

The background features two wireframe spheres of different sizes, one larger and one smaller, positioned in the lower half of the frame. A complex network of thin, grey lines crisscrosses the entire page, creating a sense of depth and connectivity. The lines are most dense around the spheres and become sparser towards the top and right edges.

BlackVel Solutions Pte Ltd

CUSTOMIZED CANVAS

CUSTOMIZED CANVAS

We are able to customize any covers or canvas in accordance to your preference. Simply select the type of canvas you want and the item that you want to cover. We will do the rest.

Procedures

- Sales consultants will show the range of fabric to choose from
- Measure the dimension of the item to cover
- Show draft drawings and quotation for customer to approve
- Customer endorse the final drawing
- BlackVel make a paid sample for customer to approve
- Customer approved
- BlackVel mass produce the approved sample
